PROFESSIONAL SUMMARY

- Having Fresher in design and development of development of Big Data solutions using HDFS, Hive, Sqoop, Apache Spark, and Cloud (AWS) technologies.
- Proficient in utilizing Spark RDD transformations and actions for the manipulation of extensive structured and unstructured datasets, encompassing tasks like filtering, mapping, reducing, grouping, and aggregating data.
- Experienced in ETL (Extract, Transform, and Load) testing methodologies and processes.
- Experienced in importing and exporting large datasets between Hadoop and relational databases using Sqoop.
- Proficient in writing Sqoop commands to transfer data between Hadoop and various databases such as MySQL, and SQL Server.
- Skilled in configuring Sqoop jobs for incremental data transfers using Sqoop's incremental import feature.
- Skilled in connecting Sqoop with other components in the Hadoop ecosystem, such as Hive and Spark, to facilitate seamless integration.
- Skilled in using Sqoop to import and export data between Hadoop clusters and data lakes such as Amazon S3.
- Proficient in handling hive partitions and buckets with respect to the business requirement.
- Experience in handling hive schema evolution with Avro file format.
- Proficient in managing the processing of semi-structured/serialized data through Hive, including formats such as AVRO, Parquet, and ORC.
- Knowledge of Hive table formats, including ORC, Parquet, and Avro, and their advantages and disadvantages for different use cases.
- Proficient in creating and managing Hive tables, including managed, external, and partitioned tables.

TECHNICAL SKILLS

Data Eco System	:	Hadoop, Sqoop, Hive, Apache Spark
Cloud Skills	:	AWS & Azure
Distribution	:	Cloudera 5.12
Databases	:	MS SQL Server, MySQL
Languages	:	python,Scala, java, SQL
Operating Systems	:	Linux & Windows

EDUCATION

Institute/College	Year	Percentage
Orissa Engineering College,Bhubaneshwar	2020	64.7%
P.L.S College,Masaurhi	2015	55.2%
Gautam Buddha Uchcha Vidyalay,Poawan	2013	52.2%
